SUMMERY

Software Engineer specializing in **backend development** and **cybersecurity**. with hands-on experience in building secure, scalable APIs and applications, combined with certifications like **CompTIA Security+** and **AZ-900**. I am **eager to learn new technologies**, contribute positively to the industry, and expand my practical knowledge.
portfolio: ahmed-sameer.com

EXPERIENCE

Backend Developer – Tamra Capital   **Feb 2025 – Present**

- Developing and maintaining highly Secure financial backend services
- Implementing secure and scalable APIs for financial transactions and user management
- Collaborating with frontend and QA teams to ensure seamless application functionality

Full-Stack Developer – Derwaza IT   **Aug 2024 – Feb 2025**

- **Working on the front-end development** using React, JavaScript, HTML, and CSS.
- **Working on the back-end** using Asp.net and Laravel.
- **Designed 20+ tables database for a project.**
- **Optimized the database query resulting in over 50% speed increase.**
- **Utilized docker for deployments and testing.**
- **Enhanced communication skills** by working closely with a team, which helped in efficient workload distribution and support amongst team members.

Software Developer (Intern) - QuiteClicks   **Sep 2021 – Oct 2021**

- collaborated with a team of 4 to develop "Kidzie," an online children clothing store.
- Built an intuitive and responsive checkout section.
- Used Node.js and React.js (JavaScript, HTML, CSS).

Jewelry Store Manager / IT – AlBakran Jewelry   **2018 – 2019**

- Bought and installed all the store's electronics and software systems.
- Managed the store's inventory and electronics.
- Made custom product tags and invoices and automated them for bulk printing.
- Improved interpersonal and communication skills.

CERTIFICATIONS

- Microsoft Azure Fundamentals AZ-900
- CompTIA Security+

SKILLS AND ABILITIES

Tools: Docker, GitHub, C#, Java, Python, TypeScript, JavaScript, SQL, Azure, Git, ASP.NET, React, Laravel

Skills: Cloud Computing, Backend, Frontend, Agile, Unit Testing, Integration Testing, Cybersecurity

Soft Skills: Analytical Thinking, Critical Thinking, Leadership, Time Management, Project Management, Adaptability, Work Ethic, Creativity, Security Oriented, Quick Learner, Communication Skills

EDUCATION

Bachelor of Science in Computer Science   **2021 - 2024**
Arab Open University

Associate Degree in Computer Programming   **2019 - 2021**
Institute of Public Administration

VOLUNTEER WORK AND PROJECTS

Core Team Member – Google Developer Students Club   **Oct 2023 – Dec 2024**

I was a core team member at GDSC at AOU, I participated in hackathon projects with a team as a software developer and tried to bring innovative ideas to life, and written some technical content for the club.

Projects:

- **Absherthon** - worked on a project that **simplifies investing** for foreign investors in the Absher app. designed the user interface in **Figma** and written the **technical report**.
- **Student Clubs Hackathon** - developed an idea of conducting a smart public transportation hackathon at AOU.
- **Google AI Hackathon** - Developed a **complaint tracker system** using **React**, **ASP.NET Web API**, and the Google **Gemini API** to detect invalid complaints based on terms of service. Implemented JWT-based authentication and authorization.
- **Weather Web App** - Created a weather app with **React** using the OpenWeather API to display intuitive weather data.

Team Member – Arab Open University Computer Club   **Aug 2023 – Dec 2024**

- Written technical content.
- Made an entertaining Cybersecurity Challenge for the students on Clubs Day and gave the students an introduction to cryptography.
- Helped in organizing events.

Author of **Docker 101 booklet** that **gained +100,000** views **on the first day of release** on **LinkedIn**

COURSES

- SOLID Principles (Udemy)
- PMP® Foundation Course (Institute of Public Administration)
- Robotics and AI (TVTC)
- 14 Courses in Programming (Satr.codes)
- 13 Courses in Management (TVTC)
